

Standish Community High School

Bus information

IGO Pass

If your child is aged between 11-16 they will need an igo pass to pay the concessionary fare on buses in Greater Manchester. The igo pass proves that they are aged 16 or under and will be valid until 31 August after their 16th birthday. The pass costs £10, you only qualify for one if you live or go to school in the Greater Manchester area.

How to apply for an IGO pass

Application forms are available from school, or you can apply online. www.tfgm.com/igo

School Buses

School Buses are easy to spot, alerting road users that children will be boarding and alighting.

The following services are used here at Standish Community High School:

976 977 978 978 979 980 981

Details of all routes and timetables can be found on the school website. Please note times/routes may change each academic year.

Regular drivers

Each service has a regular driver, allowing the driver to recognise registered users therefore reducing behaviour problems. All drivers are specially trained in customer care and disability awareness.

Handy pick-up points

Pick-up and drop off points for children are usually close to home. They may not always be at bus stops, but will be convenient for the child. They will always be in a safe place to wait and board, and an appropriate place for the vehicle to stop.

Video monitoring

All School Buses have interior and exterior CCTV video recorders for passenger safety and monitoring. Recordings will only be used to investigate incidents or for training in accordance with the Data Protection Act 1998.

Behaviour on the buses

It is essential and expected that all journeys be undertaken in a safe and comfortable manner and any misbehaviour will not be tolerated. Misconduct could mean your child is not allowed to use the bus again. If criminal behaviour takes place the Police will be involved. Parents or guardians of any children found responsible for damage to the bus will have to pay for repairs. Dangerous and potentially dangerous behaviour towards other children or the driver is not tolerated.
